

British Troops Ready for Battle With Turks Near Constantinople

BRITISH troops are pictured here, prepared to resist an advance by Kemal Pasha's Turkish forces upon Constantinople. This city, once the Turks' capital, was internationalized by the allies after the war. But after Kemal had beaten the Greeks in Asia Minor, he demanded Constantinople back, too. France and Italy inclined to sympathize with his demand, but the English declared they would fight first. The scene is near the city.

Since moving into the New Home we have had as many as 48 at one time, but the number is constantly changing as new ones are taken in almost every month and others are taken to good homes for adoption.

The Arizona Children's Home Association desires the newspapers of the state to call the attention of the people to the fact that the liberal and charitable people of Arizona are being imposed upon by organizations and workers for these associations in other states. Recently it has come to the Association through reliable sources that the representatives of Children's Homes or Orphanages of various kinds have been in different parts of this state from New Mexico and Colorado, if not from other states, raising money for their institutions. Some of them have so represented their work that even people who know the Arizona Children's Home Association well, thought they were working for our institution.

Because of health conditions of Arizona the people of this state do more than their share according to the population, for the sick and needy people from other states and it is double imposition on the people of Arizona to be expected to help support these institutions in other states in addition to all they are called upon to give to the Near East Relief and the European and China Famine sufferers.

This Association does not send its Superintendent into other states to collect funds for their work; then why should others be permitted to take money out of this state that should be given for the care of the homeless children of Arizona?

ARIZONA CHILDREN'S HOME FOR ARIZONA CHILDREN

The Arizona Children's Home Association is a non-sectarian, non-political, charitable institution, and is supported by the donations of the business, professional and charitable people of Arizona, irrespective of religious or political affiliations.

This Association was organized in Tucson in 1915, having been started several years before in connection with the Children's Home Society of California, by Dr. Gunnett, who did a great work for the homeless children of Arizona; but, after the Arizona Children's Home Association was organized he turned all the Arizona work over to that Association and requested those who had been supporting the California work to make their donations to the work in their own State.

After the Arizona Association was organized E. D. Raley was appointed State Superintendent and was succeeded by W. L. Summers, who resigned, Sept. 1921 to assist the California Society.

D. L. Reid is now State Superintendent and is traveling over the State in the interest of the Children's Home and of the homeless children, and is the only person authorized to represent the Home throughout the State. It is the aim of the Association to organize local Associations in every County in the State, and every town of sufficient size. These local Associations, as they are now doing in many places, will be of great help to the cause of homeless children and will be of great service to the State Board of Directors and the State Superintendent in their work of finding these children and finding childless homes in which to have them adopted. They are, also, doing a good work in raising funds, by entertainments, for furnishing the new Home and adding new facilities for the work.

The Association had to depend on a rented and inadequate Home for six years; but last year succeeded in building a nice, modern Home, costing \$35,000 on which \$27,280 was paid before we moved into it, December 23, 1921.

Another \$1000 has been paid recently, leaving only \$7,000 debt remaining. All this money has been donated by the liberal people of Arizona; besides, \$11,280.46 was raised in 1921 to support the Home, of which there remained, \$466.77 in the Treasury at the end of the year. The Home cared for 206 children in 1921 and had 37 in the Home at the end of the year.
